Pumpenfabrik Wangen GmbH:

The WANGEN PUMPEN management team is expanding: Stefan Isberg is responsible for the Production Centre Division

Wangen in the Allgäu region of Germany, August 2023

Stefan Isberg has been General Manager at WANGEN PUMPEN since 1 July 2023, and heads the corporate management team together with Erik Sparby and Lorenz von Haller. The 48-year old Swede is responsible for the Production Centre Division (PC), which includes the Production, Finance/Controlling, IT, HR, Product Development and Purchasing departments.

Since 2012, Stefan Isberg has held various positions in different global divisions for the Swedish Atlas Copco Group. His most recent role was as General Manager in the Product Company in Zaragoza, Spain.

"I am thrilled to be part of the growth trajectory of WANGEN PUMPEN and to work together with the team to continue the company's strong development and make use of the strengths of the Atlas Copco Group," stresses Isberg. The company's potential is constantly being expanded together with an experienced team and WANGEN PUMPEN sales partners. The Production and Logistics business areas will continue to be optimised and strengthened.

WANGEN pumps are used worldwide. The pump manufacturer based in the Allgäu region of Germany has a global focus and boasts an outstanding range of twin screw pumps and progressing cavity pumps for a wide variety of media and industries. With its 265 employees, the company has been part of the Swedish Atlas Copco AB Group since April 2022 and is part of the Power and Flow Division.
