

Additional Questionnaire for Pump Design

VarioTwin NG

Please send back to: mail@wangen.com

1. General Information					
1.1. Which task do you want to achieve?					
1.2. How is the task solved at the moment?					
1.3. Which economic advantage do you expect?					
1.4. Pls. describe the current Installation					
1.5. Your contact person for the medium?					
Extension-No.:				E-Mail Address:	
2. Additional information about the Medium					
2.1. Do pieces / chunks exist? <i>(e.g. fruit pieces, beans, meat)</i>				size in mm:	
2.2. Do solid particles exist e.g. fruit-stones, bones, kernels				size in mm:	
2.3. consistency of the medium:		☐ viscous	☐ very firm	☐ brittle-crumblly	
2.4. air pockets in the medium:		☐ yes	☐ no	☐ required	
2.5. Is the product sensitive to shearing?		☐ yes	☐ no	☐ unknown	
2.6. Is the product hazardous to health?		☐ yes	☐ no		
2.7. Is kneading of the medium required?		☐ yes	☐ no		
2.8. How much medium is available for testing?				☐ in kg	☐ in Litre
3. Feed side to the VarioTwin					
3.1. ☐ manual loading		3.2. ☐ continuous by pipeline			
3.3. ☐ continuous by conveyor		3.4. ☐ mixing process during feeding			
3.5. Is the feed quantity controllable?				☐ yes	☐ no
4. Additional information to the Discharge side					
4.1. Pressure measurement directly after the VarioTwin existing?				☐ yes	☐ no
4.2. Quantity measurement or flow measurement existing?				☐ yes	☐ no
5. Information to the testing procedure					
<i>Equipment will be provided by:</i>					
5.1. WANGEN VarioTwin	☐ WANGEN	☐ customer	5.2. frequency converter	☐ WANGEN	☐ customer
5.3. Pressure measurement for Pump	☐ WANGEN	☐ customer	5.4. Cleaning equipment	☐ WANGEN	☐ customer
6. Testing Location					
<i>Test results will be jointly documented and made available to both parties for evaluation purposes</i>					
6.1. At customers plant:		☐ Billing Address		☐ different Address:	
6.2. Support by WANGEN-technicians required?				☐ yes	☐ no
6.3. At Wangen Pumpen : Your technician will be present				☐ yes	☐ no
<i>Delivery of the Medium to Wangen. Please fill in special Transport- & Storage instructions in 7. Comments</i>					
7. Comments
